5. Describe the strengths of this course.

It is very applicable to real world stuff. Resources were readily available. Finished objectives.

6. What changes if any would you suggest for this course?

Less of the theory, or at least integrate theory with practice, more. or even do theory after practice.

4. The instructor effectively communicated the subject matter.	1	2	3	④	5

5. Describe the strengths of this course.

Instructor showed great knowledge of material  
Interesting topics

6. What changes if any would you suggest for this course?

Maybe split into 2 semesters. First one dealing only w/ background info + why and then second one hands on w/ computers and running software.

Otherwise, interesting course w/ enthusiastic professor.

Would do again any day.

**5. Describe the strengths of this course.**

The subject matter was interesting. I liked the real world applications. Could be useful later in life. Really amazing to see what is possible w/ the data.

**6. What changes if any would you suggest for this course?**

Don't cover so much material! This stuff was so foreign and I was often completely lost in lecture there is too much to try to understand. Cover less material and make sure everyone understands it.

5. Describe the strengths of this course.

Our Instructor knew a lot.

6. What changes if any would you suggest for this course?

A lot of the course was over my head.

- Our teacher may have assumed we knew more than we actually did.
- I wanted to learn to use ~~software~~ Actual Data & Images more.

**5. Describe the strengths of this course.**

I learned a lot of physics that I can apply to biology on a larger scale than I've experienced before. The teacher picked intriguing topics from a ridiculously large pool of complex + boring information. He somehow challenged each of us without going completely over our heads.

**6. What changes if any would you suggest for this course?**

I didn't learn the software that well, but that was due to my own neglect, I'll be cramming it into the next week.

The timing: Thursday from 7:10 pm - 9:55 pm was awful! I fell asleep for an average of 30 minutes per class.

fundamental knowledge of GIS.

6. What changes if any would you suggest for this course?

My recommendation to improve this course is to provide handouts for each lecture. This way we don't have to write much and we can pay more attention.

5. Describe the strengths of this course.

HE HAD A GREAT TECHNICAL KNOWLEDGE OF HIS SUBJECT MATTER & WAS ENTHUSIASTIC ABOUT THE MATERIAL. THE LECTURES WERE WELL PLANNED & PREPARED.

— HELPFUL & APPROACHABLE ONCE YOU GOT TO KNOW HIM

GREAT CLASS WITH A FEW REFINEMENTS.

6. What changes if any would you suggest for this course?

- PRE REQUISITES OF PHYSICS FOR THE CLASS
- MORE DESCRIPTION OF PROJECT & HOW TO ACTUALLY USE SOFTWARE
- LESS TECHNICAL INFO & MORE APPLICATION OF KNOWLEDGE
- MORE REFINEMENT OF ASSIGNMENTS

5. Describe the strengths of this course.

- \* Lots of information covered on many different topics
- \* Prof. was very energetic & helpful during class & office hours

6. What changes if any would you suggest for this course?

- \* Better initial course description → this class covered much different material than what I initially expected.
- \* Better choice/selection of books / programs available
- \* Professor should better design projects & power points → sometimes very convoluted & lengthy

We covered alot, it was done quickly and consisly, his teaching manner was interesting and effective.

6. What changes if any would you suggest for this course?

It was off topic all of us here are Env/Bio and this class was very technical, computer based, and off point. Classify it as something else or change the class. Also did not support those who have difficulty with computers well.
